

Hritvi Maheshwari

Python | AI/ML | Generative AI | AI & Information Practices Tutor
+91 9315334858 | maheshwarihritvi@gmail.com | LinkedIn
Delhi, India | Available full-time for six months in Delhi NCR.

CAREER OBJECTIVE

BCA student (CGPA 9.4/10) who has been tutoring school students in AI and Information Practices (Classes 9–12) since 2025, backed by hands-on Python, AI/ML and Generative AI projects. Skilled at simplifying technical concepts, guiding students through projects and communicating clearly with large audiences. Seeking the Robotics & AI Instructor Intern role at Rancho Labs to teach Grades 3–12 through project-based learning. Available full-time in Delhi NCR for six months.

EDUCATION

Institute of Innovation in Technology & Management (IITM)

Delhi, India

Bachelor of Computer Applications (BCA) (CGPA 9.4/10)

Expected Graduation: 2027

Relevant Coursework: Python, Data Analytics, DBMS, Statistics, Business Intelligence, Generative AI, Agentic AI

SKILLS

Programming: Python, C, Java, SQL

AI / Machine Learning: Machine Learning Fundamentals, Generative AI, Agentic AI, NLP, Classification, Regression

Data & Analytics: Data Cleaning, EDA, Statistical Analysis, Data Visualization, Excel, Power BI, Jupyter Notebook

Tools: Streamlit, LangChain, APIs, Git/GitHub

EXPERIENCE

Private Tutor – AI & Information Practices

Classes 9, 10, 11 & 12

2025 – Present

- Taught AI and Information Practices to school students across Classes 9–12, adapting explanations to different grade levels and learning paces.
- Simplified concepts such as Python programming, data handling, databases and AI fundamentals using examples and practical exercises.
- Provided one-to-one support, set assignments and practice problems, and tracked student progress and exam preparation.
- Built patience and the ability to explain a concept in multiple ways until students understood it.

Student Coordinator – Placement Cell

Delhi, India

Institute of Innovation in Technology & Management (IITM)

2025 – Present

- Coordinate between recruiters, students and faculty; organise placement sessions, workshops and GD/PI practice.

Event Host, Anchor & Student Event Coordinator

School & College Events

2023 – Present

- Hosted seminars, competitions and technical programs for audiences of 100–1000+; managed live events and audience engagement.

PROJECTS

MeetFlow – AI Meeting Assistant

- Built an LLM-powered app (Streamlit, LangChain) that turns meeting recordings into transcripts, summaries, key points, decisions and action items.
- Designed an interactive interface so users can easily explore meeting information.

Student Performance Analysis

- Cleaned academic data and used statistical analysis to identify factors affecting student performance; presented findings through charts and visual reports.

The 1 in the 0's – When Data Meets Discrimination

- Explored real-world datasets to identify bias and trends; presented findings through reports and dashboards in an easy-to-understand way.

CERTIFICATIONS & ACHIEVEMENTS

- Data Analytics – ShapeMySkill | Generative AI & Agentic AI – GRASStech (4-Week Practical Training)
- 2nd Best Project among 65 students (Generative AI & Agentic AI training)

RESEARCH & LEADERSHIP ACTIVITIES

- **IEEE - Member:** Took part in research paper reading sessions, workshops and discussions on AI and Data Science.
